RAMP 2010 Scientific Peer Review

January 31, 2011

This page provides links to various documents associated with the latest independent peer review conducted by the RAMP.

RAMP initiated the peer review in June 2010, selecting Alberta Innovates – Technology Research (formerly the Alberta Research Council) as an independent third party facilitator to coordinate the Peer Review Process.

RAMP undertook the review of its existing aquatic monitoring program to assess and update its program as part of RAMP's focus on continuous improvement to its programs.
